I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: After unsuccessful attempts of using synthetic hormone replacement available through local pharmacies. My doctor prescribed a compounded prescription that has allowed me once again to live a quality life. I disagree with the M.O.U. being proposed by the FDA - doctors and patients should have the choice of receiving medications from whoever they want regardless of which state provides that medication.
